

1.8 PREAMBLE

This Agreement is made in pursuant to section 15 of the National Forestry and Tree planting Act, 2003

Between the National Forestry Authority (NFA) and Katum Collaborative Forest Management group

COLLABORATIVE FOREST MANAGEMENT AGREEMENT (KCFMG) NO. 001/CFM/2010

1.9 PURPOSES OF THE PARTIES INVOLVED

1. NATIONAL FORESTRY AUTHORITY, P.O. BOX 2080 FOR UGANDA

FOR

National Forestry Authority (NFA) is a Responsible Body mandated to sustainably manage Central Forest

Reserve in Uganda for a sufficiently literate, ecologically stable and economically prosperous Uganda.

2. KATUM COLLABORATIVE FOREST MANAGEMENT GROUP (KCFMG), C/O P.O. BOX 1,

PART OF LALAK CENTRAL FOREST RESERVE

Sponsored by 107 members with 39 families and 58 males covering 45 households drawn from our 11 parish

of Lalak

Prepared jointly by:

3.0 THE PARTIES

NATIONAL FORESTRY AUTHORITY

The agreement for collaborative forest management between the National Forestry Authority and Lalak Reserve situated in Lamwo District, Uganda. Lalak Reserve is a forest Reserve situated in Lalak Sub County, Lamwo District, bounded by six local councils; G, J, K, L, M, N and O. Lalak Reserve is situated in the West, South Central, Karamoja, Rutor and K, Omo Valley and Lango regions.

4.0 OBJECTIVES

It is agreed that the KCFMG shall collaborate to manage the forest reserve with the National Forest Authority under the following objectives:

KATUM CFM GROUP

4.1 Shared Vision

AND

A sustainably managed Lalak Central Forest Reserve for the livelihood of the present and future generation by 2040

4.2 Objectives

1. To promote income generating activities.
2. To enhance linkage and network with other development partners.
3. To promote sustainable forest management of Lalak Central Forest Reserve for the benefit of its present and future generations.

1.0 PREAMBLE

This Agreement is made in pursuant to section 15 of the National Forestry and Tree planting Act, 2003 between the **National Forestry Authority (NFA)** and **Katum collaborative forest management group (KCFMG)** this 30th day of August 2017

2.0 DESCRIPTION OF THE PARTIES INVOLVED

i) National Forestry Authority, P.O. Box 70863 Kampala UGANDA;

National Forestry Authority (NFA) is a Responsible Body mandated to sustainably manage Central Forest Reserves in Uganda for a **sufficiently forested, ecologically stable, and economically prosperous Uganda.**

ii) KATUM COLLOBORATIVE FOREST MANAGEMENT GROUP (KCFMG), C/O P.O BOX 1, PADIDE EAST, LAMWO DISTRICT, is interested forest user group, secondary level CBO. It comprises of a total of 107 members with 49 females and 58 males covering 88 households drawn from one (1) parish of Katum.

3.0 THE FOREST

This agreement is for collaborative management of part of Lalak Central Forest Reserve situated in Lamwo district, Lamwo County, Padide East Sub County, surrounded by six local councils(6), that is:- Katum west, Katum central, Katum east, Katum east B, Tumangu and Lagotongu.

4.0 OBJECTIVES

It is agreed that the KCFMG shall collaboratively manage the forest reserve with the National Forest Authority under the following objectives.

4.1 Shared Vision

A sustainably managed Lalak Central Forest Reserve for the livelihood of the present and future generation by 2040.

4.2 Objectives

1. To promote income generating activities.
2. To create awareness and network with other development partners.
3. To promote sustainable forest management of Lalak Central forest Reserve for the benefit of the present and future generation.

4. To enhance the management capacity of the CBO.

5.0 ROLES AND RESPONSIBILITIES OF THE PARTIES

5.1 Roles of Katum Collaborative Forest Management group

- a) The community undertakes to adhere to prescriptions of the collaborative forest management plan in implementing the various activities laid out herein.
- b) The following shall be roles of Katum collaborative management group in Lalak Central Forest Reserve.
 - i) Create awareness and promote environmental conservation.
 - ii) Jointly patrol the forest against all forms of illegal activities.
 - iii) Mobilise the community for forest management activities.
 - iv) Manage funds generated from CFM activities.
 - v) Resolve conflicts related to management with the forest
 - vi) Formulate penalties for offenders of CFM plan.
 - vii) Participate in apprehending culprits.
 - viii) Conduct meetings
 - ix) Network with other development partners and lobby for funds
 - x) Keep records of all forest management activities
 - xi) Prepare progress reports of CFM implementation.

5.2 Roles / Responsibilities of National Forestry Authority (NFA)

The following shall be the roles of National Forestry Authority.

- i) Jointly monitor the implementation of CFM plan with Katum CFM group
- ii) Manage Lalak CFR.
- iii) Collect revenue from commercial resource use if any.
- iv) Support where possible the implementation of projects such as bee keeping, Tree planting, Fruit growing, fish farming, ecotourism establishment.
- v) Supervise resource extraction.
- vi) Provide technical advice and guidance for the implementation of activities within the management plan.
- vii) Issue a tree planting licence to Katum CFM group as a community based organisation.
- viii) Issue licenses and permits for resource use in accordance with the National Forestry and Tree Planting Act 2003, and any other relevant regulations and guidelines.

- ix) Jointly patrol and protect the forest with Katum CFM group.
- x) Mobilize and sensitize the community on general conservation issues.
- xi) Link the community to other development partners.
- xii) Keep records for resource use.

5.3 Roles / Responsibilities of Local Government

- i) Help in resolving conflicts
- ii) Give moral and financial support to Katum group in implementation of CFM plan.
- iii) Help in monitoring implementation of activities.
- iv) Apprehend offenders.
- v) Recognise and market Katum CFM group.
- vi) Collect revenue in form of market dues and forest dues.

6.0 RIGHTS AND BENEFITS

6.1 Benefits of Katum CFM group

- i) Income from forestry related activities.
- ii) Improved relations with NFA staff.
- iii) Legally recognised access to forest resources for livelihoods.
- iv) Employment opportunities.
- v) Fame and recognition.
- vi) Modification of the local weather.

6.2 Benefits of National Forestry Authority

- i) Better managed and conserved forest.
- ii) Revenue from licensed activities.
- iii) Improved relations with the local community.
- iv) Good publicity
- v) Reduced management costs

6.3 Benefits of Local Government

- i) Improved and peaceful community.
- ii) Improved relationships with NFA.
- iii) Good publicity.

Note: For the entire duration of this agreement, the community shall be entitled to the rights and benefits set out in this agreement and as specified in the collaborative Forest Management Plan. The signing parties may agree to modify benefits from time to time during the process of reviewing the Collaborative Forest Management Plan after which they can be adopted.

NFA and other stakeholders are also entitled to benefits portrayed in the Collaborative Forest Management plan attached.

7.0 DURATION OF THE AGREEMENT

Subject to the National Forestry and Tree Planting Act 2003 and the CFM regulations the contents of this agreement will remain applicable for a period of ten (10) years from the date of signing. The agreement shall be reviewed initially after three (3) year and then after every two (2) years if the parties are in compliance with the obligations under the CFM agreement.

8.0 REVIEW, REVISION AND RENEWAL

National Forestry Authority shall notify all parties to be involved in review and revision of the CFM plan initially after three (3) year and then after every two (2) years. However, the day-to-day monitoring based on the plan will be done by the responsible parties.

Upon expiry of the agreement the parties may agree to have it renewed. KCFMG shall apply for renewal 12 months before the expiry of the existing agreement. The same procedure as for the application shall be applied with modifications as the parties may deem necessary.

Katum Group shall submit to the NFA bi-annual reports of its activities and operations as set in the agreement plus other adhoc reports the NFA may in its supervisory capacity require the Katum CFM Group to prepare day-to-day monitoring based on the plan will be done by the responsible parties.

9.0 BREACHES

Subject to the National Forestry and Tree Planting Act, 2003, the Forestry Policy 2001, CFM guidelines 2003, the Forest Management Plan for Agoro-Agu Management Plan Area and any other relevant regulations and guidelines, breaches of this agreement shall be dealt with as follows:

- All breaches perpetrated by an individual or individuals who are not members of KCFMG to which the said forest has been attributed, shall be dealt with in accordance with the National Forestry and Tree Planting Act, 2003 and any other relevant regulations.

- In cases where KCFMG as a whole colludes in breach of this agreement, the National Forestry and Tree Planting Act, 2003 and any other relevant regulations and guidelines, such breach shall lead to annulment of this agreement. This will be communicated in writing by the National Forestry Authority.

10.0 MECHANISM FOR DISPUTE RESOLUTION

- a) Any dispute arising between the parties in relation to the interpretation, application and implementation of this agreement shall be settled amicably by the parties within Ten (10) days of its occurrence.
- b) In the event that the parties fail to settle the dispute in the manner envisaged in clause 10 (a) herein, the matter shall be referred to mediation by a single mediator.
- c) A mediator shall be a person who is knowledgeable in the subject of the dispute, impartial and must be mutually agreed upon by both parties.
- d) If the dispute remains unresolved after sixty (60) days of commencement of the mediation sessions, the parties shall then refer the matter to court.

11.0 TERMINATION OF THE AGREEMENT

- a) Either party may terminate this agreement by giving a written notification within ninety (90) days with reasons of its intention to terminate to the other party which may within thirty (30) days of receipt thereof request that the matter be reconsidered.
- b) Reconsideration of an intention to terminate this agreement shall be done by the intending party and the response communicated in writing to the other party within 45 days of receipt of the request.
- c) If the intending party resolves that it no longer intends to terminate this agreement, the agreement shall be deemed to continue as though the notice in 11 (a) had never been issued.
- d) If no request for reconsideration is made by the recipient party, this agreement shall be deemed to have been terminated upon expiry of the ninety (90) days' notice.

12.0 SIGNATORIES

The contracting parties solemnly declare that they are aware of the prescriptions of Collaborative Forest Management plan terms and content of this agreement and accept without reservation all the provisions.

This agreement shall take effect from the date of signature and shall last for its duration unless annulled in accordance with the Forestry regulations.

Appendix II: Map showing Resources in Lalak Central Forest Reserve

Appendix III: List of participants/Witnesses during the Signing of CFM Agreement

1.0 INTRODUCTION

1.1 Background to the management plan

The increasing population of the local people adjacent to Lalak Central Forest Reserve has resulted into high dependency levels on the forest resources. This has reduced the forest vegetation cover in addition to interference of the forest reserve boundaries.

COLLABORATIVE FOREST MANAGEMENT PLAN

Collaborative Forest Management is a process by which agreement is made between the forest adjacent communities and the responsible body on Roles/Responsibilities, Rights and Duties to a forest reserve to therefore improve fair's conserved and improved forest management that can support the livelihoods of the people.

CFM involves fair improving the lives needs of interested forest adjacent communities through a shared agreement with a responsible body concerning access and management of forest resources in a given Central Forest Reserve. This collaboration does not mean that NFA abdicates ownership to the community, but it is a way of accounting them in for responsible for the resources from which they benefit. This provides opportunity for the communities to participate in forest resources management.

Part of LALAK Central Forest Reserve

1.2 Physical Geography

1.2.1 Location

Lalak Central Forest Reserve is located in Subcounty of Padide East, Lamwo County, and Lamwo District. It is surrounded by several local councils that include; Karon and Kafeni council, Kachum

Prepared jointly by:

KATUM COLLABORATIVE FOREST MANAGEMENT GROUP (KCFMG)

1.2.2 CFM Area

This area is located in part of Lamwo CFR, Lamwo District, Lamwo County, and Padide East Sub County in Karon Parish.

AND

1.2.3 Area, Description, Gazzetttement, Legal status and Ownership

Lalak CFR which covers a total area of 2,213ha was gazetted in the year 1961 under Statutory Instrument No. 100 and No. 63 of 1960. The forest is protected in trust for the people as stipulated in article 237(2) of the constitution of the Republic of Uganda, 1995. Management and control of Lalak CFR is carried by National Forestry Authority in accordance with section 14(1) (a) of the National Forestry Act.

NATIONAL FORESTRY AUTHORITY (NFA)

1.2.4 Topography and Geology

Lalak Central Forest Reserve is situated on the undulating ground with numerous rock out crops. It has massive forming components of isolated points. It is incisive - hilly relief characterised by streams and river valleys.

The geological formations are granite and gneiss of the basement complex, with granite boulders rock over much of the area rounded by weathering, covered by shallow soils except at the foot of escarpments and in the valleys. Gray brown sand overlying red clay or brown sandy loam to brown sandy soils and brown chappertized the area.

1.0 INTRODUCTION

1.1 Background to the management plan

The increasing population of the local people adjacent to Lalak Central Forest Reserve has resulted into high dependency levels on the forest resources. This has reduced the forest vegetation cover in addition to interference of the forest reserve boundaries.

Collaborative Forest Management, a mutually agreed arrangement between the forest adjacent communities and the responsible body on Roles/Responsibilities, Rights and Returns in a forest reserve is therefore important for a conserved and improved forest management that can support the livelihoods of the people.

CFM focuses on improving the livelihoods of interested forest adjacent communities through a shared agreement with a responsible body concerning access and management of forest resources in a given Central Forest Reserve. This collaboration does not mean that NFA surrenders ownership to the community, but it is a way of encouraging them to be responsible for the resources from which they benefit. This provides opportunity for the communities to participate in forest resources management.

1.2 Physical Geography

1.2.1 Location

Lalak Central Forest Reserve is located in Sub-county of Padide East, Lamwo County, and Lamwo District. It is surrounded by several local councils that include; Katum west, Katum central, Katum east, Katum east B, Tumangu and Lagotongu.

1.2.2 CFM Area

This area is located in part of Lalak CFR, Lamwo District, Lamwo County, and Padide East Sub County in Katum Parish.

1.2.3 Area, Demarcation, Gazetttement, Legal status and Ownership

Lalak CFR which covers a total area of 2,212ha was gazetted in the year 1961 under Statutory Instruments 1998 and No.63 of 1968. The forest is protected in trust for the people as stipulated in article 237(2) of the constitution of the Republic of Uganda, 1995. Management and control of Lalak CFR is vested in National Forestry Authority in accordance with section 54(1) (a) of the National Forestry and Tree Planting Act, 2003.

1.2.4 Topography and Geology

Lalak Central Forest Reserve is situated on the undulating ground with occasional rock out crops. It has massive forming escarpments at isolated points. It's a mountainous – hilly reserve dissected by streams and river valleys.

The geological formations are gneiss and granite of the basement complex, with granite bare rock over much of its area rounded by weathering, covered by shallow soils except at the foot of escarpments and in the valleys. Gray brown sands overlying red clay or brown sandy loam to brown sandy soils and brown characterized the area.

1.2.5 Vegetation and Forest Condition

Lalak is mainly a woodland and hilly/montane type with dry combretum savannah, forest savannah and dry montane forest. The forest has bamboo dominant moist thicket and savannah woodlands and grasslands.

The forest is generally vulnerable and fragile to soil erosion and habitat destruction because of its topographical features. It's ecologically fragile and needs to be protected against degradation.

1.2.6 Biodiversity Value

Lalak CFR has a high biodiversity value though the forest boundary needs to be re-opened. It is a water catchment forest and needs to be protected against destruction. It's hilly in nature and therefore harboring some species of flora and fauna of biodiversity conservation interest.

2.0 THE NEGOTIATED PLAN OF ACTION

2.1 The Negotiated Objectives

2.1.1 The shared Vision

A sustainably managed Lalak Central Forest Reserve for the livelihood of the present and future generation by 2040.

2.1.2 Objectives

- i) To promote income generating activities.
- ii) To create awareness and network with other development partners.
- iii) To promote sustainable forest management of Lalak Central forest Reserve for the benefit of the present and future generation.
- iv) To enhance the management capacity of the CBO.

2.2 STRATEGIES SET TO ACHIEVE STATED OBJECTIVES

Table 1: Strategies under each objective

No	Objective	Activities
1	To promote income generating activities.	<ul style="list-style-type: none"> -Conduct bee keeping. -Establish tree nursery. -Engage in ecotourism. -Sale of local herbs. -Engage in sustainable harvesting of bamboo through license. -Engage in other government programs for income generation i.e. OWC, NUSAFF III, FIFOCC, UWEP. -Start and manage Village saving and loan scheme. -Promote better agricultural practises. -Engage in animal rearing on private land.
2	To create awareness and network with other development partners.	<ul style="list-style-type: none"> -Conduct radio talk shows. -Engage in regular meetings. -Conduct exchange visits. -Write news articles/ fliers/ newsletters. -Participate in activities of other development partners.
3	To promote sustainable forest management of Lalak Central forest Reserve for the benefit of the present and future generation.	<ul style="list-style-type: none"> -Participate in boundary re-opening. -Engage in tree planting in degraded areas. -Conduct regular forest patrols in Lalak CFR. -Engage in community sensitization. -Plant live markers along the forest boundary. -Protect the forest against wild fires. -Collaborate with the NFA in management of Lalak CFR.

		<ul style="list-style-type: none"> - Train the charcoal producers operating on private land on how to increase production recovery. - Promote the production and use of energy saving stove and use of other alternative sources like biogas.
4	To enhance the management capacity of the CBO.	<ul style="list-style-type: none"> -Conduct regular meetings. - Train in leadership skills and capacity building in various fields. -Market CBO activities. - Set by-laws. - Facilitate exposure visits. -Training in book keeping and record management.

3.0 DURATION OF THE PLAN

This management plan is for a period of ten years (10) from 2017 to 2027. Scheduled reviews will be undertaken initially after 3 years and then after every 2 years. KCFMG shall make one (1) annual work plan and reviews shall be undertaken if results from the monitoring programme indicate that it is necessary.

4.0 NEGOTIATED RESOURCE ACCESS ARRANGEMENTS

4.1 Poles /Bamboo Materials

Agreed Regulations	Penalties to Offences	Responsibilities	Benefits
Who: All CFM members of Katum group and the forest adjacent communities of Lalak CFR.	Offence: Illegal commercial harvesting without license	CFM Members -Harvesting bamboo and poles. -Maintenance of the forest fire line.	CFM Members -Available poles and bamboo for domestic and commercial use. -Local handcrafts from bamboo materials.
What: Poles and bamboo for building, fencing, fuel and firewood for domestic use. Commercial use shall acquire a license from NFA.	Penalty: Cautioned and released by the NFA in case it's a CFM member.	CFM Executive -Acquire license for commercial use. -Marketing the products	CFM Executive -Knowledge and skills. -Available firewood.
How: Mature bamboo and poles collected in head loads or use of	CFM Act Fined in accordance with the provisions of the NFTP Act 2003.	CFM Executive -Monitor performance. -Patrols and security.	CFM Executive -Income. -Harvesting of building materials. -Firewood for home use.

bicycle, motorcycles and animal carts. Commercial use shall acquire a license from NFA. Young bamboo shall be for crafts making for domestic use.	Offence: Harvesting on non-gazetted days	CFM Executive - Record keeping. -Monitoring. -Supervision of harvesting. -Enforcing guidelines. -Apprehend culprits.	NFA -Conserved forest. -Good relations with partners and the local communities. -Revenue from licensees. -Good publicity.	-Knowledge and skills.
Where: Identified sites in Lalak CFR and community land if available.	Penalty: Fine of 20,000 given to the culprit. When: From November to March is the peak season for collection. Friday and Saturday shall be the collection days for the group and the community. Alternative: Planting Bamboo plantlets on private and community land.	CFM Executive - Issue license. -Technical advice. -Monitor and supervise work. -Lobbying for seedlings. -Enforce by- laws. -Sensitize the community -Training in bamboo propagation.	Local Government -Good relationship with the community and other stakeholders. -Good publicity.	Stakeholders(IUCN, EA,AIVI) -Experience. -More donor funds. - Acceptance by other development partners.
		Local Government -Enforcing by- laws -Sensitize and mobilise members and local community -Monitor implementation of activities. -Apprehend culprits. -Facilitate trainings		Stakeholders(IUCN, EA, AIVI) -Technical support. - Network and linkages. -Lobbying for support. -Facilitate trainings. - Financial support.

4.2 Stone Quarrying

Agreed Regulations	Penalties to Offences	Responsibilities	Benefits
<p>Who: All members of Katum CFM group of Lalak CFR.</p> <p>What: Stones for domestic use with guideline for extraction. Commercial extraction shall acquire license from NFA and guideline for extraction.</p> <p>How: Collecting hard core, quarrying and hammering in the designated or allocated areas.</p> <p>When: Beginning in 2017.</p> <p>Note: In case of any ceremony or death, the concerned members can notify the responsible committee on stone quarrying or patrol team of NFA.</p>	<p>Offence: Commercial extraction without license by the group members and community members.</p> <p>Penalty: Written warning given issued to the affected persons.</p> <p>In case the culprits persist, they will be handled according with the provisions of the NFTP Act 2003.</p>	<p>CFM Members</p> <ul style="list-style-type: none"> -Enforce the law and agreed guidelines. - Maintain the site. - Quarry the stones. - Lobby for support. - Market. <p>CFM Executive committee/ Committee</p> <ul style="list-style-type: none"> -Report to the patrol team or NFA. -Monitor extraction and use. -Implement the set regulations and by-laws. - Record keeping. -Lobby for support. <p>NFA</p> <ul style="list-style-type: none"> -Monitoring and supervising the activity. - Report progress on above. -Follow up any cases that may occur. (Conflict management). - Give technical advice. -Apprehend culprits. <p>Local Government</p> <ul style="list-style-type: none"> -Revenue. Good relations with partners <p>Stakeholders(IUCN, EA, AIVI</p> <ul style="list-style-type: none"> -More donor funding. - Recognition and acceptance. <p>Local Government</p> <ul style="list-style-type: none"> - Demarcate the area. -Enforcing laws. -Providing security services and assists in handling cases and culprits. 	<p>CFM Members</p> <ul style="list-style-type: none"> -Income. -Employment for locals. -Building materials. <p>CFM Executive</p> <ul style="list-style-type: none"> -Experience in leadership. -Income. - Social respect. <p>NFA</p> <ul style="list-style-type: none"> -Improved relationship with the community.

		-Supervision/ monitoring implementation.
Stakeholders(EA,AIVI)	IUCN,	<p>IUCN,</p> <ul style="list-style-type: none"> - Technical advice. -Lobbying for more community support.

4.3 Sand Mining

Agreed Regulations	Penalties to Offences	Responsibilities	Benefits
Who:	CFM Members	CFM Members	CFM Members
Who: All members of Katum CFM group.	Offence: Failure to comply with the guidelines of sand mining.	<p>CFM Members</p> <ul style="list-style-type: none"> -Follow the guidelines of sand mining licenses. -Sensitize members on the guidelines of sand mining. -Monitor and report progress of activities. 	<p>CFM Members</p> <ul style="list-style-type: none"> -Income. -Employment. -Knowledge and skills. - Building materials.
What: Sand for construction for domestic use and commercial purposes.	Penalty: Terminate the license.		
How: After NFA maps the sand areas in Lalak CFR. Acquiring EIA certificate as assessed by NEMA. Acquiring a sand mining licence from NFA.	Offence: Illegal harvesting of sand by both CFM and non CFM members.	<p>NFA</p> <ul style="list-style-type: none"> -Work as custodians to protect the sand not to be taken by intruders. -Conduct joint operation on the above activity 	<p>CFM Executive / committee</p> <ul style="list-style-type: none"> -Income. -Recognition. -Building materials.
Domestic use shall require written permission from the NFA field staff and sand committee.	Penalty: Fined 50,000 in case if's a CFM member.	CFM executive/ committee	<p>NFA</p> <ul style="list-style-type: none"> -Apprehend culprits. -Identify market. -Provide Security.
How Much: Depending on the need.	NFA shall fine in accordance with the provisions of the NFPT Act 2003 for the non-members.	NFA	<p>Local Government</p> <ul style="list-style-type: none"> -Good relationship with the community. -Acquisition of Knowledge about CFM. -Fulfilment of government programs.
Where: In the mapped sand areas of Lalak CFR.		<p>NFA</p> <ul style="list-style-type: none"> -Demarcate the sand area. -Technical advice. -Conflict management. -Record keeping. -Sensitize communities on sand mining guidelines. 	
When: After obtaining sand licence as per the guidelines. Written permission given to the CFM members by the NFA field			Stakeholders(IUCN,EA, AIVI)

staff and patrol team.	<ul style="list-style-type: none"> -Monitor and evaluate the progress. -Conduct joint operation on the above activity. -Plan/ budget for operational activities. <p>Local Government</p> <ul style="list-style-type: none"> -Mobilisation. -Enforcing laws. -Sensitize and mobilise members and local community. -Monitor implementation of activities. -Apprehend culprits. <p>Stakeholders(IUCN, EA, AVI)</p> <ul style="list-style-type: none"> -Evaluation of activities. -Monitoring and supervision. -Mobilisation. 	<ul style="list-style-type: none"> -More donor funding. -Fulfilment of project objectives.
------------------------	---	--

4.4 Land for Tree Planting

Agreed Regulations	Penalties to Offences	Responsibilities	Benefits
<p>Who: The members of Katum CFM group.</p> <p>What: Land for tree planting.</p> <p>Species: Musizi, Teak, Mahogany, Melia, Terminalia, Eucalyptus along the boundaries.</p> <p>Where: In allocated areas of Lalak CFR.</p>	<p>Offence: Failure to plant trees on the allocated area within a period of 4 years</p> <p>Penalty: Written warning should be given to the group before the planting season expires.</p> <p>Land shall be surrendered to NFA.</p>	<p>CFM Members:</p> <ul style="list-style-type: none"> - Plant trees. - Manage the planted trees. - Harvest at maturity as guided by the technical staff. -Lobby for seedling and technical support. -Participate in monitoring of progress of work. - Re-plant the harvested area 	<p>CFM Members:</p> <ul style="list-style-type: none"> -Conducive environment -Availability of medicinal plants. -Income and revenue for all partners -Knowledge and skills -Alternatives like timber, poles in abundance -Increased forest cover

	The license shall be cancelled. Offence: Renting of Land under the pretext of CFM Penalty: As above	CFM Executive Committee: Failure to plant NFA according to the guidelines (Maintenance and protection of the trees). Planting the allocated land shall be done in 4 seasons (4 years) beginning March 2018. The region has one planting season per year.	CFM Executive Committee: -Implement the work plan. -Supervise and participate in work. -Keep record on performance.	NFA: - Mobilise members for tree planting. Report to NFA any offences that occur.	CFM Executive Committee: -Knowledge, experience and skills in governance. - Revolving fund generated from the group activities. NFA: - Increased forest cover. - Reduced management costs. - Improved relationships with the local people. - Revenue from licenses - Recognition acceptance.
	When: After assessment, zonation and demarcation of the area is done according to the physical features in the forest.	How: The allocated area shall require initial clearing where necessary, liming, pititing and planting done. Spacing shall depend on the tree species. Planting shall be done as group. Individual planting shall not be allowed. Managing of the trees Spot weeding, line siashing, thinning shall be done. Since Latak CFR is conservation and water catchment forest, taungya system (mixing food crops with trees) shall not be allowed because it won't enable the forest to regenerate.	NFA: Culprits dealt with in accordance with provisions of NFTP Act 2003.	NFA: - Allocate and demarcate land for tree planting. - Process and issue tree planting license. - Supervise implementation of CFM	Stakeholders(Environmental Alert, IUCN, AIWI) - Visibility and recognition. - More donor funds. Improved relations with the community. Local Government: -Revenue. -Peaceful community members. -Fulfilment of government programs. -Recognition and acceptance.

-Handle disputes on above.

Note: NFA shall offer a Tree planting license to the Katum CFM group for free. Ownership of these trees will be for the

group members of Katum CFM group
but the land shall remain for NFA.

NFA shall map demonstration sites and
prepare a planting calendar for the
group.

Alternatives:
Establishment of woodlots on private/
community land.

-Engage in marketing.

Local Government:

- Lobbying for seedling or offer support
- Market the organisation.
- Monitor, supervise and report on performance.
- Offer technical support.
- Enforce the law.
- Offer security where necessary.

**Stakeholders(EA, IUCN,
AIVI)**

- Capacity building.
- Offer seedlings.
- Provide alternatives sources.
- Network and linkages.

4.5 Bee Keeping (Apiary Project)

Agreed Regulations	Penalties to Offences	Responsibilities	Benefits
Who: All members of Katum CFM group.	Offence: Malicious destruction of hives and products. Offence: Theft of bee hives and products. Penalty: Culprits shall be dealt with in accordance with the provisions of the NFTP Act 2003.	CFM group Members -Siting the hives -Maintaining the hives and site -Mobilise member -Lobby for hives -Participate in site identification together with the specialist. -Harvesting the products -Marketing the products -Seek technical advice	CFM members -Income. -Food (honey). -Medicine. - Skills and knowledge.
What: Bee keeping with modern/ improved bee hives.	Offence: Failure to follow the agreed guidelines. Penalty: Written warning given to the culprits for the first time.	CFM Executive/ Bee Keeping committee -Record keeping. -Maintenance of site. -Provide security. -Marketing products. -Set by- laws.	NFA -Conserved forest. -Good relationship with communities. - Recognition.
How: Site preparation Acquire bee hives Acquire harvesting materials	Offence: Two apiary sites selected	CFM Executive/ Bee Keeping committee -Record keeping. -Maintenance of site. -Provide security. -Marketing products. -Set by- laws.	Local Government -Revenue from market dues. - Fulfilment of government programs.
Where: in the selected sites/ area of Lalak CFR as guided by the technical staff or district entomologist.	Offence: If it persists the bee keeping committee shall be dissolved for failure to perform and the activity shall be terminated from the plan and the hives removed from the forest.	NFA -Together with the specialist, identify the appropriate apiary site. - Allocate/ select suitable bee keeping sites.	Stakeholders(IUCN, EA,AIVI -Recognition. -Attraction of more donor funding. - Good relationship with other partners.
Two apiary sites selected	When: After zoning the sites this year 2017.	Support where possible by giving hives and harvesting gear. -Monitoring progress of activity. - Supervise implementation of activities.	

	<ul style="list-style-type: none"> -Train members. -Marketing products. -Apprehend culprits. -Enforce the laws. <p>Local Government</p> <ul style="list-style-type: none"> -Conduct trainings. -Set by- laws. -Select sites. -Monitor progress of activity. -Lobby for hives and harvesting gear. -Supervise activity. -Prosecute culprits. -Enforce the law.
	<p>Stakeholders(IUCN, EA, AVI)</p> <ul style="list-style-type: none"> -Provide bee hives. -Market honey and honey products. -Train members. -Technical advice.

Agreed Regulations	Penalties to Offences	Responsibilities by CFM Members	Benefits
Who: All CFM members of Katum group.	Offence: Trespass by researchers, foreigners etc.(Tourists, researcher, must be accompanied by guides)	- Guide tourists, researchers. - Implement ecotourism -Market ecotourism attractions and potentials. -Protect the ecotourism site and attractions. -Monitor site performance.	-Income. - Knowledge and skills. -Employment as guides. -Recognition and fame.
What: Engage in ecotourism in Lalak CFR and Community tourism adjacent to the CFR	Penalty: Cautioned and released by the NFA		
How: In the selected areas/ sites with ecotourism potentials and OR: Handled in accordance		Acquire ecotourism license	CFM Executive/ committee Tourism

4.6 Ecotourism Establishment

4.7 Timber

Lalak CFR is a water catchment forest and should be protected against degradation. Some seasonal swamps and small rivers originate from the hills and mountains of the forest. Because of its ecological functions, it's not recommended for timber harvesting both domestic and for commercial purposes.

4.8 Access to Medicinal Herbs

The community has free access to herbs for domestic use. Commercial extraction of resources shall be done with permit or license as issued by NFA. Collecting without permission or a license is prohibited and the culprit may be fined as per the loot and the resource taken from him. The user group of herbs/medicines is encouraged to domesticate herbs.

4.9 Other Resources (Forest Foods, Fibres and Craft Materials)

These resources are extracted for domestic use/ livelihoods purposes. The harvesting levels of fibres are during the dry season or when the need arises. It's generally agreed that, the community shall continue to access these resources as it has been.

However, NFA and the CFM executive committee shall continue monitoring the extraction levels and thereby set bi-laws in case the levels increase in the near future. This shall be done during the periodic review of the plan.

5.0 ALTERNATIVES

5.0.1 Fruit Growing

This is an alternative for promoting/improving livelihoods. The user group of Lalak forest will be mobilised and trained on improved fruit trees species. Fruit trees shall be planted on Local community private land. Improved fruits species like oranges, Mangoes, avocados, Passion fruit and Jack fruit among others shall be planted. The CFM group members with guidance from NFA and other stakeholders like Local Government through CDO's office, OWC, IUCN, AIVI, and EA will do the following:

- Prepare project proposal for fruit growing.
- Identify interested individuals members.
- Seek support from other stakeholders inform of capacity building and funds for buying the fruit tree seedlings.
- Buy and plant seedlings of improved fruits species.
- Maintain the planted fruit trees.
- Harvest and take some fruits for house hold use and sale.
- Market the products.
- Discuss the benefit sharing procedure of the project.

5.0.2 Fish Farming

Fish farming shall be practised as another alternative income generating activity. This shall be done by Katum CFM group member of Lalak CFR. Members will be mobilised and trained as the need arises. It is generally agreed that this activity shall be done either in Lalak forest in case the streams for fish pond establishment are available or on private land. The CFM group members with guidance from NFA and other stakeholders like Local Government through the CDO's office, OWC, IUCN, AIVI, and EA will do the following:

- Prepare project proposal for fish farming.
- Identify interested individuals members.
- Seek support from other stakeholders inform of capacity building and funds for necessary equipment.

- Train people in fish farming.
- Identify the best sites for fish farming with the assistance of fisheries department.
- Harvest and sale fish
- Dig the fish ponds
- Maintain the ponds
- Market the products.
- Discuss use/sharing of benefits from the project
- Set by-laws/ regulations

6.0 OTHER MANAGEMENT ASPECTS

6.0.1 Fire Management

Lalak CFR is usually affected by fires. These fires are in some cases intended (caused by hunters and agricultural encroachers) and sometimes they are actually wild fires.

Interventions

- Establishment of fire lines before the fire season(especially around the tree planted area by the CFM group)
- Controlled and early burning around the forest.
- Sensitization of the forest adjacent community.
- Formulation of bi-laws.
- Coordination with partners like Lutheran World Federation (LWF) which is conducting research on fires in the region.

Note: LWF shall communicate to the NFA its finding and can be adopted in the plan where applicable.

6.0.2 Research

Research shall be conducted in Lalak forest on permit from NFA.

6.0.3 Hunting

Hunting is not allowed as it's against the Uganda Wildlife Act. However, a casual spot hunting license can be issued to interest individuals through the Uganda Wildlife Authority (UWA) in collaboration with the Sub County leaders.

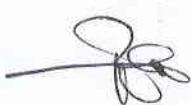

6.0.4 Vermins

Vermin control will be done in consultation/ collaboration with the vermin control officer at the Sub County or Lamwo district headquarters.

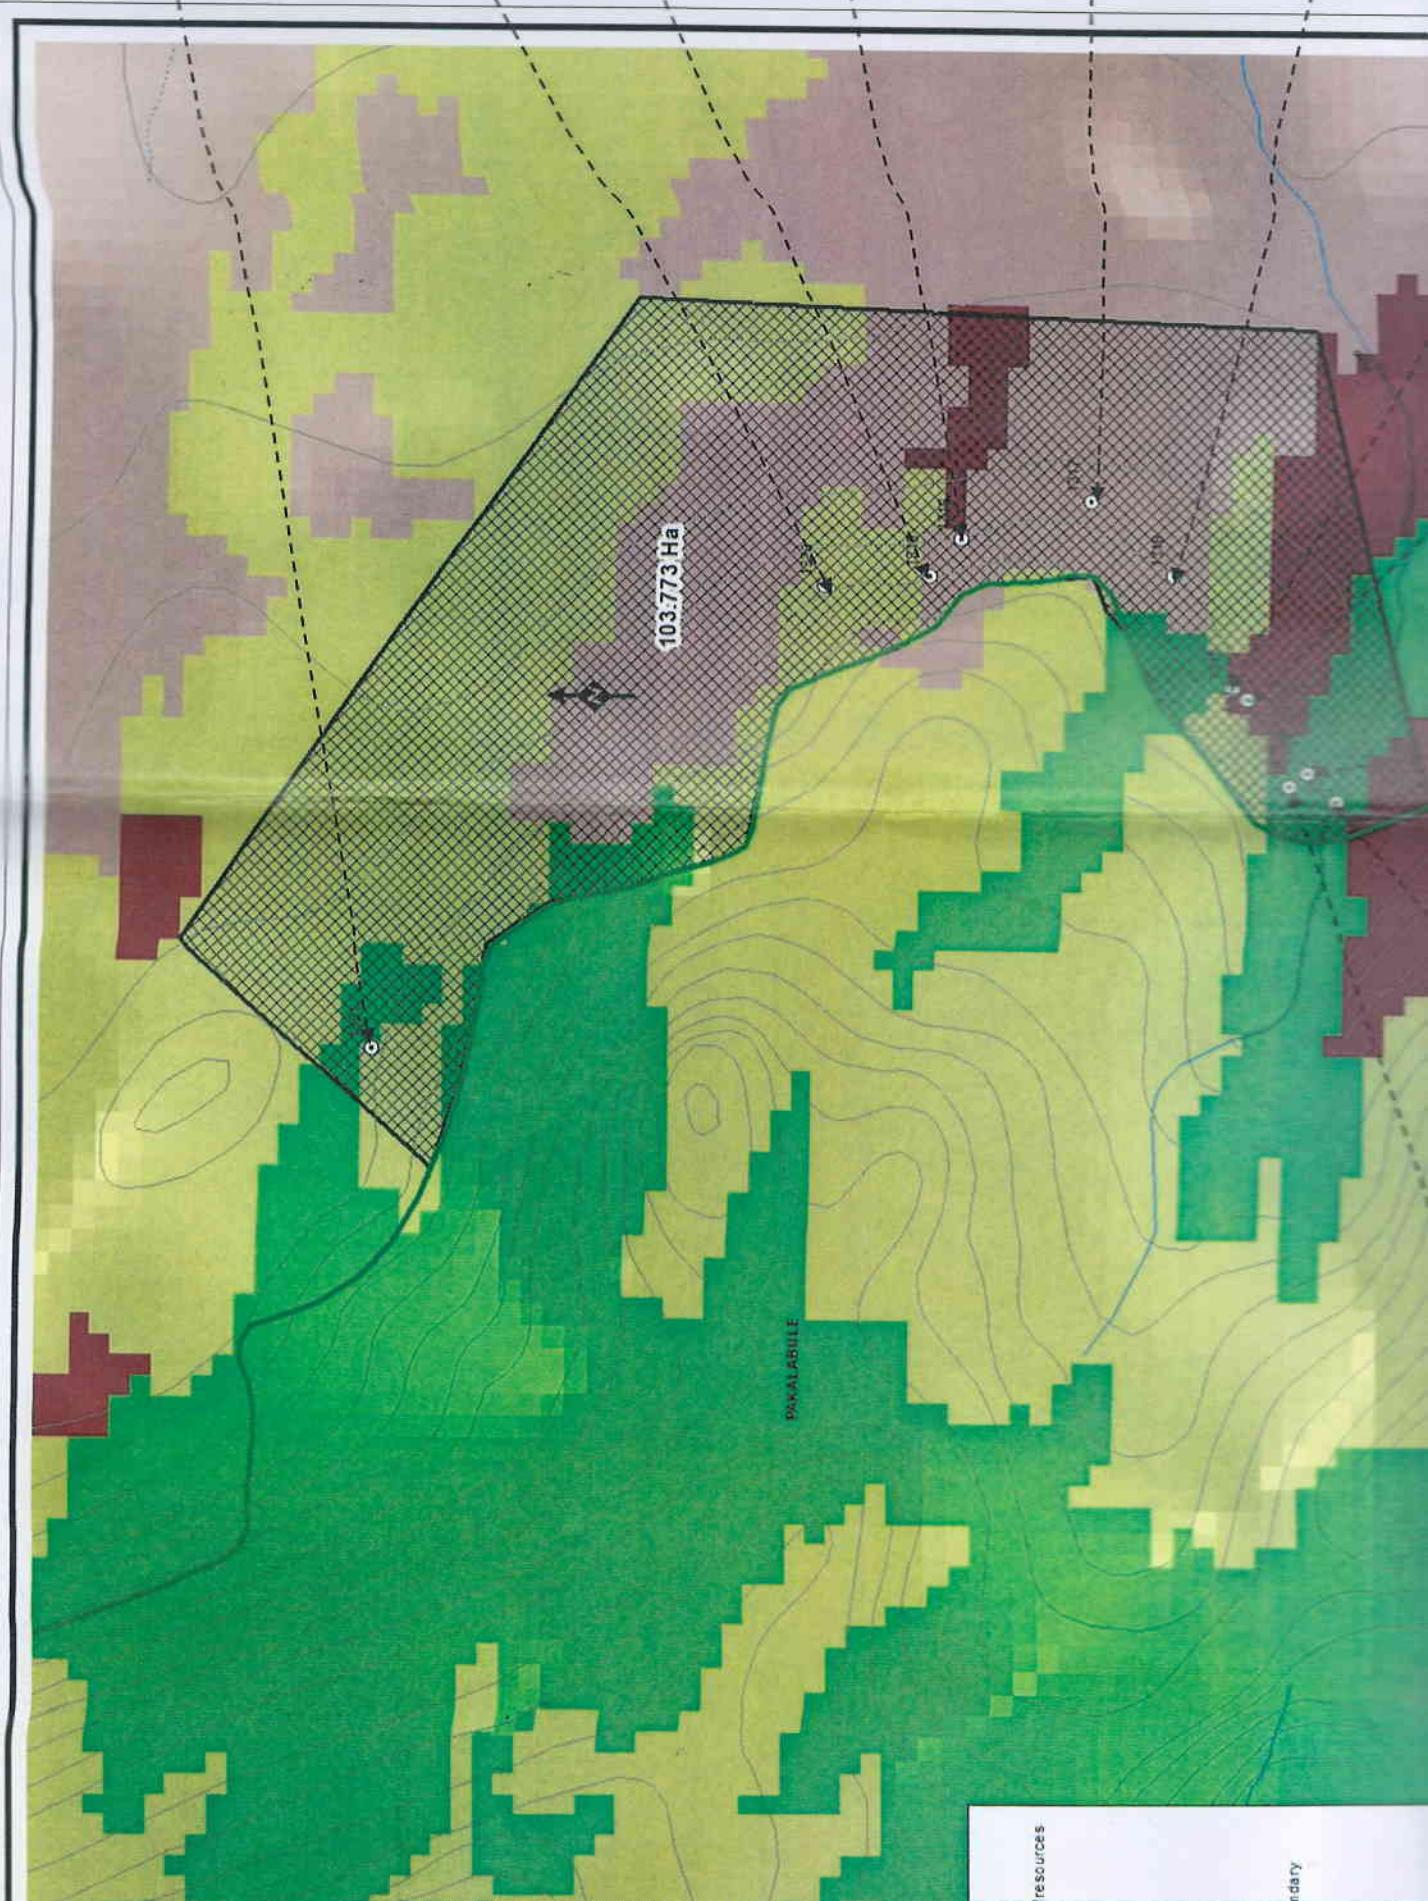

7.0 CAPACITY TRAINING NEEDS (COMMUNITY SENSITIZATION)

What?	Who is responsible?
Leadership skills and management skills	Local government, EA, IUCN, AIVI,
Training in Bee Keeping	CDO's office, EA, IUCN, NFA, Local government
Agro forestry	AIVI, NFA
Trainings in Fish farming	District Fisheries office, CDO's office
Tree Planting and management	NFA, LG, LWF, EA, IUCN, AIVI
Project proposal writing	CDO's, AIVI, LG
Nursery establishment and management	NFA, DFO, VI- Agro forestry, PROMETRA, SPGS, NAAAADS.
Marketing skills	NFA, District commercial officer, DFS, AIVI

Energy saving options/ Technology(Biogas, energy saving stoves)	LG, EA, AIVI, IUCN
Monitoring & Evaluation skills	CDO's office, NFA, CFM committee, National Resource dept.
